

**UNITED STATES DEPARTMENT OF AGRICULTURE**

Farm Service Agency  
Washington, DC 20250

**Notice DCP-53**

**For:** State and County Offices

**Automated Process for Replacing Deceased and Dissolved Entity Historic Peanut Producers**

**Approved by:** Acting Deputy Administrator, Farm Programs

*Liane Sharp*

---

**1 Overview**

**A**

**Background**

The Farm Security and Rural Investment Act of 2002 provides for determining a method for assigning average acreage and yields when the historic peanut producer is deceased or when an entity that is a historic peanut producer is dissolved.

1-DCP, subparagraph 250 F provides policy for replacing historic peanut producers who are deceased or when an entity that is a historic peanut producer is dissolved.

---

**B**

**Purpose**

This notice provides instructions for replacing historic peanut producers in the automated system.

---

**C**

**Automation  
Software**

Automation software for replacing historic peanut producers who are deceased, or dissolved entities composed of historic peanut producers, will be transmitted on November 8, 2002.

---

<b>Disposal Date</b>	<b>Distribution</b>
March 1, 2003	State Offices; State Offices relay to County Offices

---

## Notice DCP-53

### 3 Updating Historic Producer, Acreage, and Yield Process

---

#### A

##### Overview of Update Process

The screens in subparagraphs C and D will be displayed for replacing historic peanut producers. COC shall follow procedure in 1-DCP, subparagraph 250 F for making determinations to identify the correct person to replace the historic peanut producer.

**Important:** Determinations shall be recorded in COC minutes.

---

#### B

##### Instructions for Updating Replacement Producers

After COC has approved a request for replacing a deceased historic peanut producer or a dissolved entity, follow the steps in this table. On Menu MPAB10, ENTER "5".

Step	Action
1	Select the correct historic peanut producer to be replaced from Screen MPAB7001.
2	Verify that the correct producer has been selected from Screen MPAB7002.
3	The average acreage and yield calculated by year on each farm will be displayed on Screen MPAB7101. Select each farm 1 at a time to replace the historic peanut producer
4	After a sequence number is selected on Screen MPAB7101, PRESS "Enter". Screen MPAB7201 will be displayed. PRESS "Cmd16" to add producer(s).  <b>Note:</b> If the historic peanut producer has more than 1 farm, an "X" will be placed by the sequence number for each farm that has been updated.
5	On screen MPAB7201, update acreage for 1998 through 2001 according to subparagraph C.
